FROM CONCEPT  
TO INSTALLATION

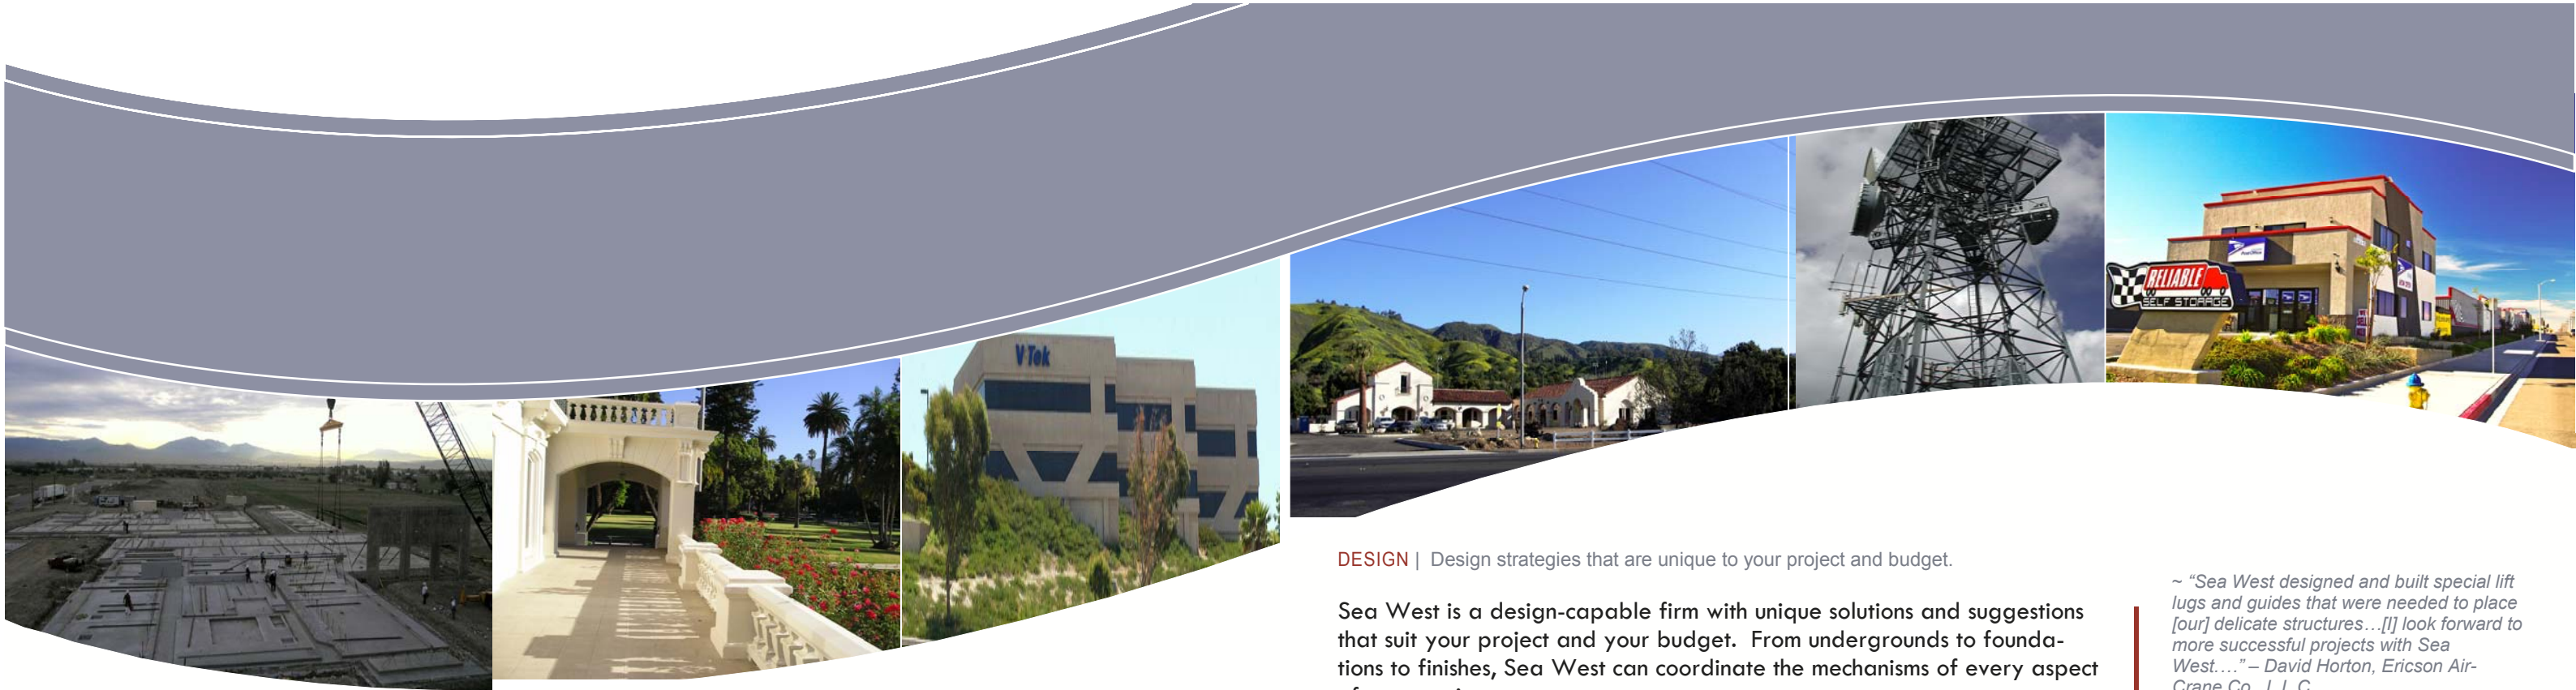

Achieve greater impact through creative construction strategies.

Sea West Enterprises

DESIGN | DEVELOPMENT | BUILD | PROJECT MANAGEMENT

**WE ARE COMMITTED TO PROVIDING PROFESSIONAL CONSTRUCTION STRATEGIES THAT DIRECTLY IMPROVE YOUR COMPANY'S BOTTOM LINE.**

Services to help companies develop and complete the project of their dreams.

Sea West has been in business since 1977 and continues to be successful in a wide variety of construction specialties, including undergrounds and the intricacies of scientific project development. Our interest in your vision and our attention to detail is rarely found in construction companies today. We are a State of California Corporation, fully bonded and insured, and hold both A and B licenses.

With a streamlined, efficient company structure, Sea West has the ability to provide a quality product at an extremely competitive price. When we estimate a job, it is with all considerations included so you will see the approximate overall cost of your project as close as we can get it. Combined with a one-on-one approach, Sea West has a reputation for staying very close to budget and schedule, whatever the challenge.

*"We measure our performance according to the impact that we have in completing the project on time and on budget."*

~ ERIC J. SIMISON | CEO, SEA WEST ENTERPRISES

**DESIGN** | Design strategies that are unique to your project and budget.

Sea West is a design-capable firm with unique solutions and suggestions that suit your project and your budget. From undergrounds to foundations to finishes, Sea West can coordinate the mechanisms of every aspect of your project.

**DEVELOPMENT** | Development services that provide twenty years of experience and insight.

Development projects are a special niche. The company you select to produce your developments must be, among other things, able to smoothly navigate the municipalities. Sea West has twenty years of development experience combined with a straight-forward, progressive attitude that can take charge of your development project and see it through to a satisfying conclusion.

**BUILD/CONSTRUCTION SERVICES** | Sea West carries a General Construction Class A license and an Engineering Class B License and can produce turn-key projects.

Construction projects are directed by Sea West's CEO, Eric Simison. Under his guidance, the Sea West team has successfully designed and developed projects such as tilt-Ups, self-storages, custom office buildings, and scientific research centers. Sea West designed and built the telescope enclosures for the world-renowned CHARA Interferometric array on Mt. Wilson, California.

**PROJECT MANAGEMENT** | Sea West provides superior project management based on our vast array of experience in a variety of projects.

Competent project management is key. Sea West management staff is highly educated and highly attuned to the individual needs of your project, from specialty designs to straight-forward construction projects. Trust Sea West with all of your project management needs.

~ "Sea West designed and built special lift lugs and guides that were needed to place [our] delicate structures...[I] look forward to more successful projects with Sea West..." - David Horton, Ericson Air-Crane Co., L.L.C.

~ "A capable, cooperative and innovative construction firm..." - Harold A. McAllister, PhD, CHARA Director, Georgia State University

~ "The attention to details... is to be commended and [is] not often found today in construction companies..." - Richard I. Olsen, President, Ash Manufacturing Company.
